## **C2A Security Acquires Vigilant Ops, Creating a Global Market-Leading AI-Powered Product Security Powerhouse, adding Tens of MedTech, Telecom, and Defense Customers**

**The acquisition delivers faster compliance, stronger supply-chain security, and unparalleled MedTech expertise, while positioning C2A Security for accelerated global growth**

**Jerusalem, Israel, and Pittsburgh, USA, October 9, 2025 – C2A Security**, the only context and AI-driven product security orchestration platform addressing the needs of software-defined products and cyber-physical systems, today announced the acquisition of Pittsburgh-based **Vigilant Ops**, a trailblazer in product security and Software Bill of Materials (SBOM) automation for the healthcare and MedTech sectors. The deal, a first of its kind in the sector, positions C2A Security at the forefront of one of the most regulated and high-stakes industries, combining its AI-driven product security platform with Vigilant Ops' proven track record in helping global medical device manufacturers and healthcare providers safeguard patient safety, protect supply chains, and meet stringent regulatory mandates. The acquisition positions C2A Security as a multi-industry product security powerhouse with global scale.

Founded in 2019 and supporting tens of customers, including Fortune 500 healthcare organizations, such as Bayer and Ascensia, Vigilant Ops has become synonymous with SBOM transparency and FDA and EU MDR compliance readiness. By integrating these capabilities into C2A Security's product security orchestration platform, C2A Security now offers an even more powerful risk management and AI-SOAR (Security, Orchestration, Automation, and Response) Platform for organizations building and securing connected healthcare technologies.

"This is an exciting milestone for Vigilant Ops and our customers. C2A Security's comprehensive, AI-based platform and global reach will accelerate our shared vision of making product security accessible, scalable, and seamlessly embedded into the development process," said **Ken Zalevsky**, CEO of Vigilant Ops. "I look forward to joining the C2A team and bringing my deep understanding of product security and regulatory domains to support customers, strengthen partnerships, and help guide the company's expansion into MedTech and other highly regulated sectors."

“As C2A Security grows its global footprint and support for software and AI-defined products in multiple markets, MedTech and defense are at a critical inflection point, with rising cyber threats and tightening regulatory demands,” said **Roy Fridman**, CEO of C2A Security. “The acquisition of Vigilant Ops is a decisive step in expanding our presence in MedTech and other new sectors. We are committed to the healthcare sector and to giving innovators the tools, talent, and partnerships they need to deliver secure, compliant products at scale. And for investors, this expansion proves the scalability of our unified model across multiple industries.”

### **Strategic Business Impact**

- Customer benefit: Organizations gain faster compliance, stronger supply-chain security, and reduced risk through a comprehensive AI-powered platform.
- Regulatory advantage: Vigilant Ops’ SBOM automation strengthens C2A Security’s ability to help customers prove and maintain compliance with FDA, EU MDR, and defense/telecom mandates.
- Growth engine: Expansion into MedTech, defense, and telecom unlock new billion-dollar addressable markets and drives cross-industry revenue streams.
- Supply-chain resilience: Enhanced AI-driven supplier and component risk management improves time-to-value and reduces costly remediation cycles.
- Stronger IP portfolio: Combines Vigilant Ops’ SBOM and compliance IP with C2A Security’s AI-SOAR capabilities to deliver faster, more accurate decisions at scale.

### **Expanding Leadership**

Vigilant Ops’ leadership team will join C2A Security, bringing deep MedTech and regulatory expertise, as well as strong customer relationships, that will enhance C2A Security’s ability to serve the healthcare industry, while expanding its leadership in defense and telecom.

### **About C2A Security**

C2A Security is the only AI-based, context-driven product security orchestration platform that addresses the specific needs of software-defined products in heavily regulated sectors.

Founded in 2016, C2A Security's customers and technology partners include top-tier global players as BMW Group, Daimler Truck AG, Elekta, NVIDIA, Siemens, Orcanos, Marelli, NTT Data, and Deloitte. A CLEPA Innovation Award recipient for its industry-pioneering DevSecOps platform, C2A Security empowers companies to bridge the visibility gap between security and engineering teams towards a unified security posture. By leveraging AI-driven contextual analysis, advanced security automation, and automated compliance reporting, C2A Security transforms product security to shorten software release times and decrease costs in the healthcare, industrial, robotics, automotive, and other Cyber-Physical Systems.

C2A Security was founded by NDS/Cisco veteran Michael Dick, with its global headquarters in Jerusalem, Israel. [c2a-sec.com/](https://c2a-sec.com/).

### **About Vigilant Ops**

Established in 2019, Vigilant Ops has rapidly emerged as a frontrunner in SBOM Lifecycle Management solutions. Our innovative platform empowers organizations to seamlessly generate, monitor, and manage their SBOMs through a unified dashboard, while also facilitating the secure sharing of SBOMs. Engage with our SBOM specialists today to discover how Vigilant Ops can enhance your organization's cybersecurity strategy.
